

What our clients are saying about Lone Star Senior Care

My mother is eighty-two years old and just can't do all the things she used to. Of course, she didn't want to move into a retirement home, and we didn't want to put her in one.

Our Lone Star caregiver, Shirley, is the perfect solution and my mother's new best friend.

My parents refused to admit they needed a little help around the house. Finally, after much persuasion, they decided to give Lone Star a try.

Yesterday, I called to ask if they needed me to come by and do some grocery shopping or laundry. Dad said, "No, Chris (their caregiver) is here. Why don't you stop by for a cup of coffee?"

Lone Star has literally changed our lives. Thank you so very much.

A better way.

Senior citizens are leading longer and healthier lives. - An inability to keep up with chores around the house
- Reliance on family for support and assistance
- Increasing isolation and diminished mobility
- Risks of falling injuries and other household hazards
- Loss of self-esteem, optimism, and purpose
- The stress and guilt of dependence on family and loved ones
- The prospect of losing the home, neighbors, and possessions of a lifetime
